

MARKDOWN SLIDES

[EN]

ADOLFO SANZ DE DIEGO

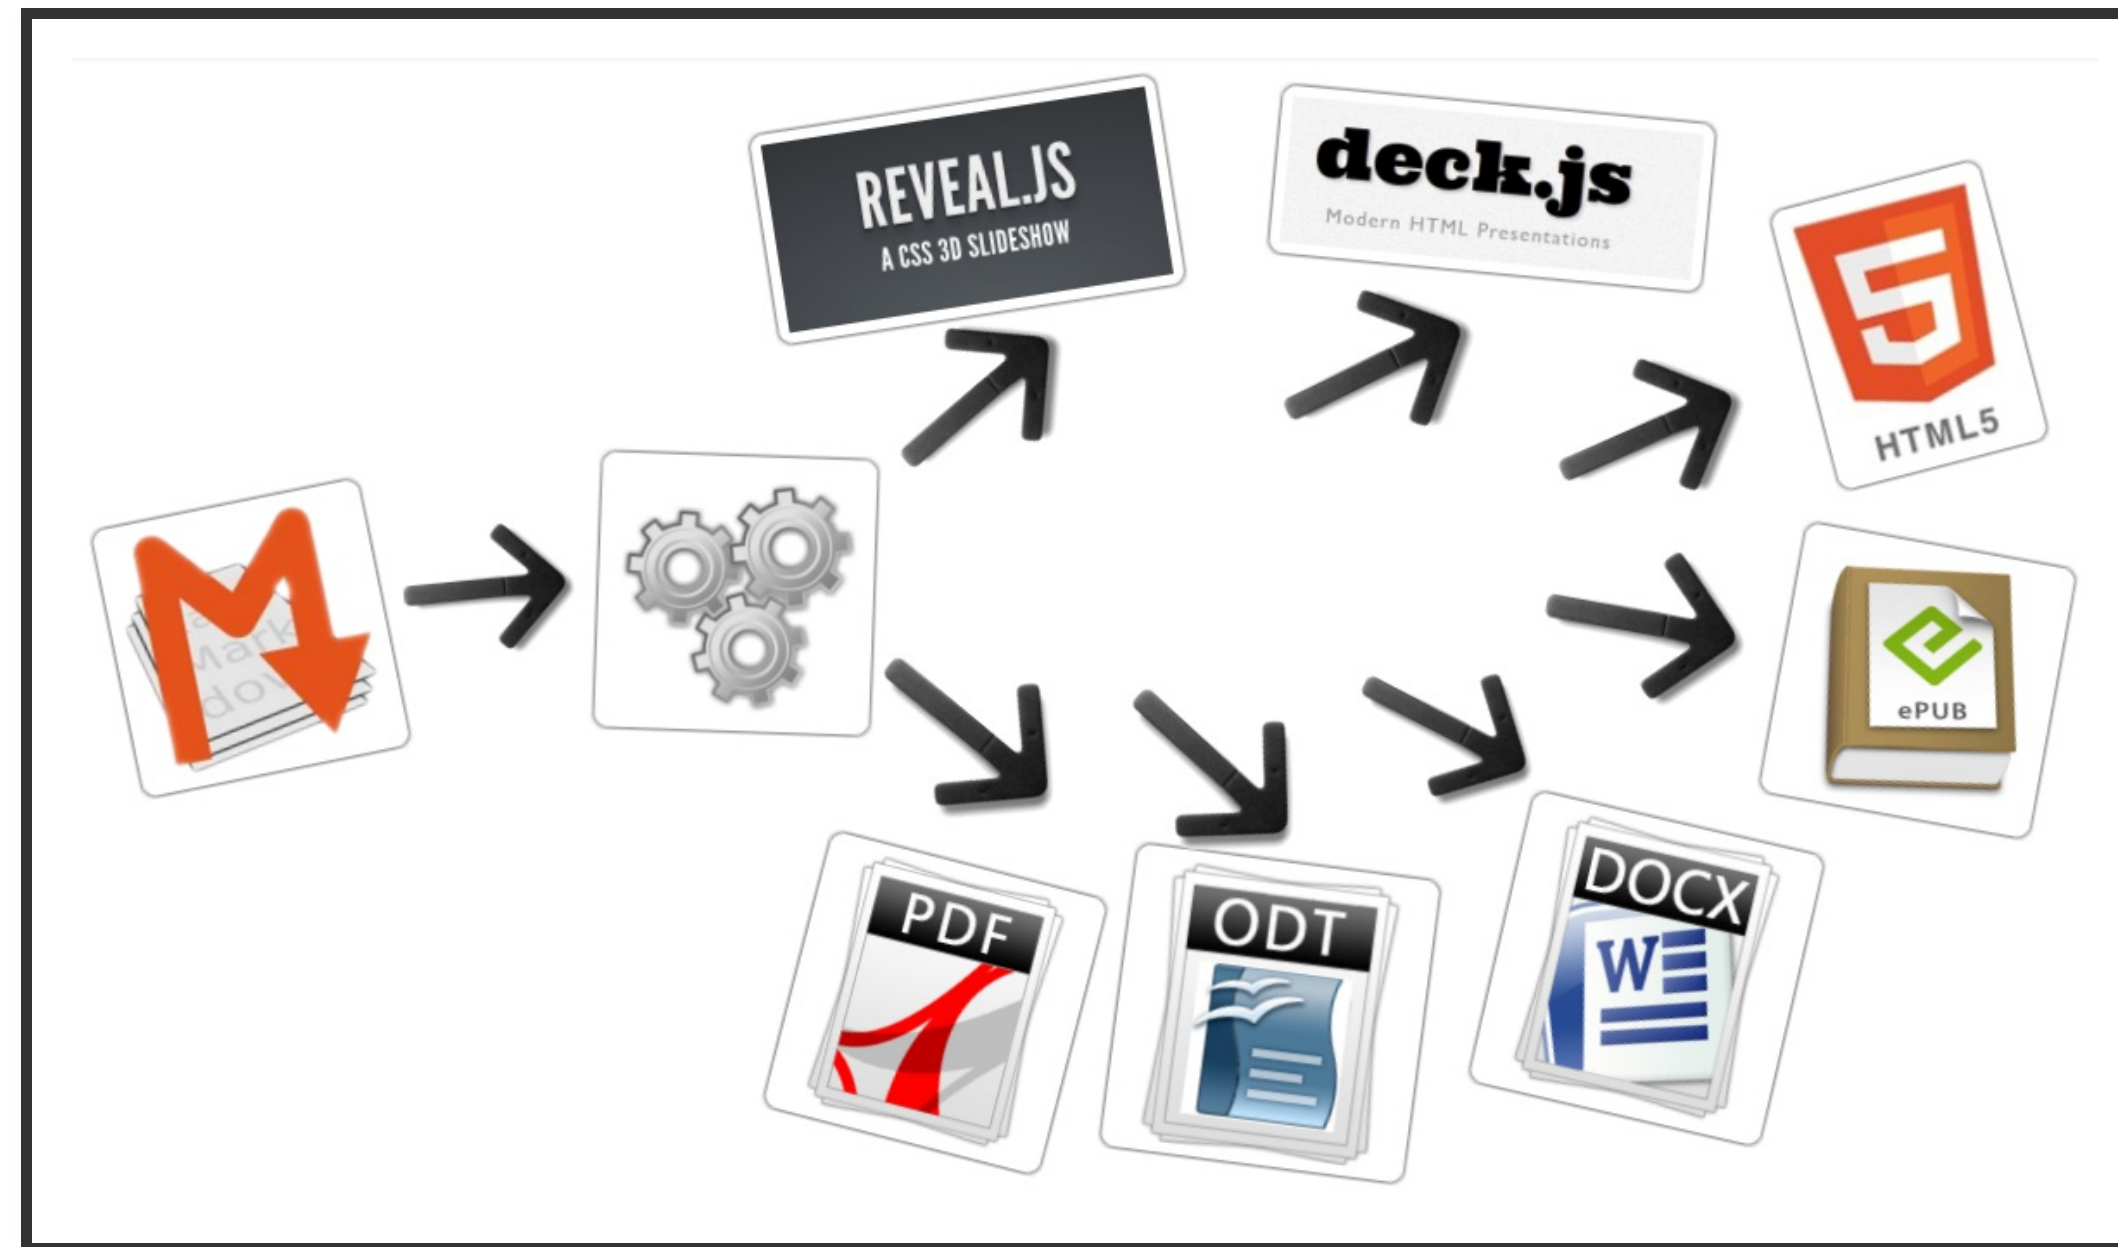

SEPTEMBER 2016

1 ABOUT

1.1 WHAT IS IT? (I)

- **MarkdownSlides** is a **Reveal.js**, **Deck.js** and **PDF slides** generator from **MARKDOWN** files, that also generate **HTML**, **ODT** and **DOCX** documents.

1.2 WHAT IS IT? (II)

1.3 SAMPLES

- From a **MARKDOWN** file generate:
 - deck-slides
 - deck-slides-alternative
 - reveal-slides
 - reveal-slides-alternative
 - reveal-pdf-slides
 - reveal-pdf-slides-alternative
 - html
 - docx
 - odt

1.4 LICENCE

- This work is licensed under a:
 - Creative Commons Attribution 3.0
- The program source code are licensed under a:
 - GPL 3.0

2 INSTALATION AND HOW TO USE

2.1 DEPENDENCIES

- **Pandoc** (needs to be installed)
- **Phantom.js** (needs to be installed)
- **Reveal.js** (automatically downloaded)
- **Deck.js** (automatically downloaded)
- Now, only works in Linux (may be on MacOS)

2.2 DOWNLOAD

- <https://github.com/asanzdiego/markdownslides/arc>

2.3 CREATION (I)

- First copy the doc folder and rename it as you like. This is not necessary but helps you organize your documents.
- Create the md files that you want to generate in the md folder. The md files are **Markdown** files which are nothing more than plain text files with extension md, and a lightweight markup (we should know it but it is very simple).

2.4 CREATION (II)

- Once created the md files, we can generate with an script.
 - reveal-slides
 - reveal-pdf-slides
 - deck-slides
 - pdf-beamer
 - pdf
 - html
 - docx
 - odt

2.5 BUILD

- In the root folder you have to execute:

```
./build.sh [mode] [folder]
```

- Where **[mode]** can take the next values:
 - **"min"**: generate deck-slides and plain html.
 - **"med"**: generate also reveal-slides, docx and odt (**default value**)
 - **"max"**: generate all formats.
- And where **[folder]** is the name of the folder wher to find the md files. If no folder name, it will convert all md files of all the folders.

3 AUTHOR

3.1 ADOLFO SANZ DE DIEGO

- Old JEE web developer
- Now I'm Technical Teacher Advisor in the TIC service of the General Direction of Infrastructure and Services of the Ministry of Education, Youth and Sports of the Community of Madrid.
