

# **MARKDOWNSLIDES**

**ADOLFO SANZ DE DIEGO**

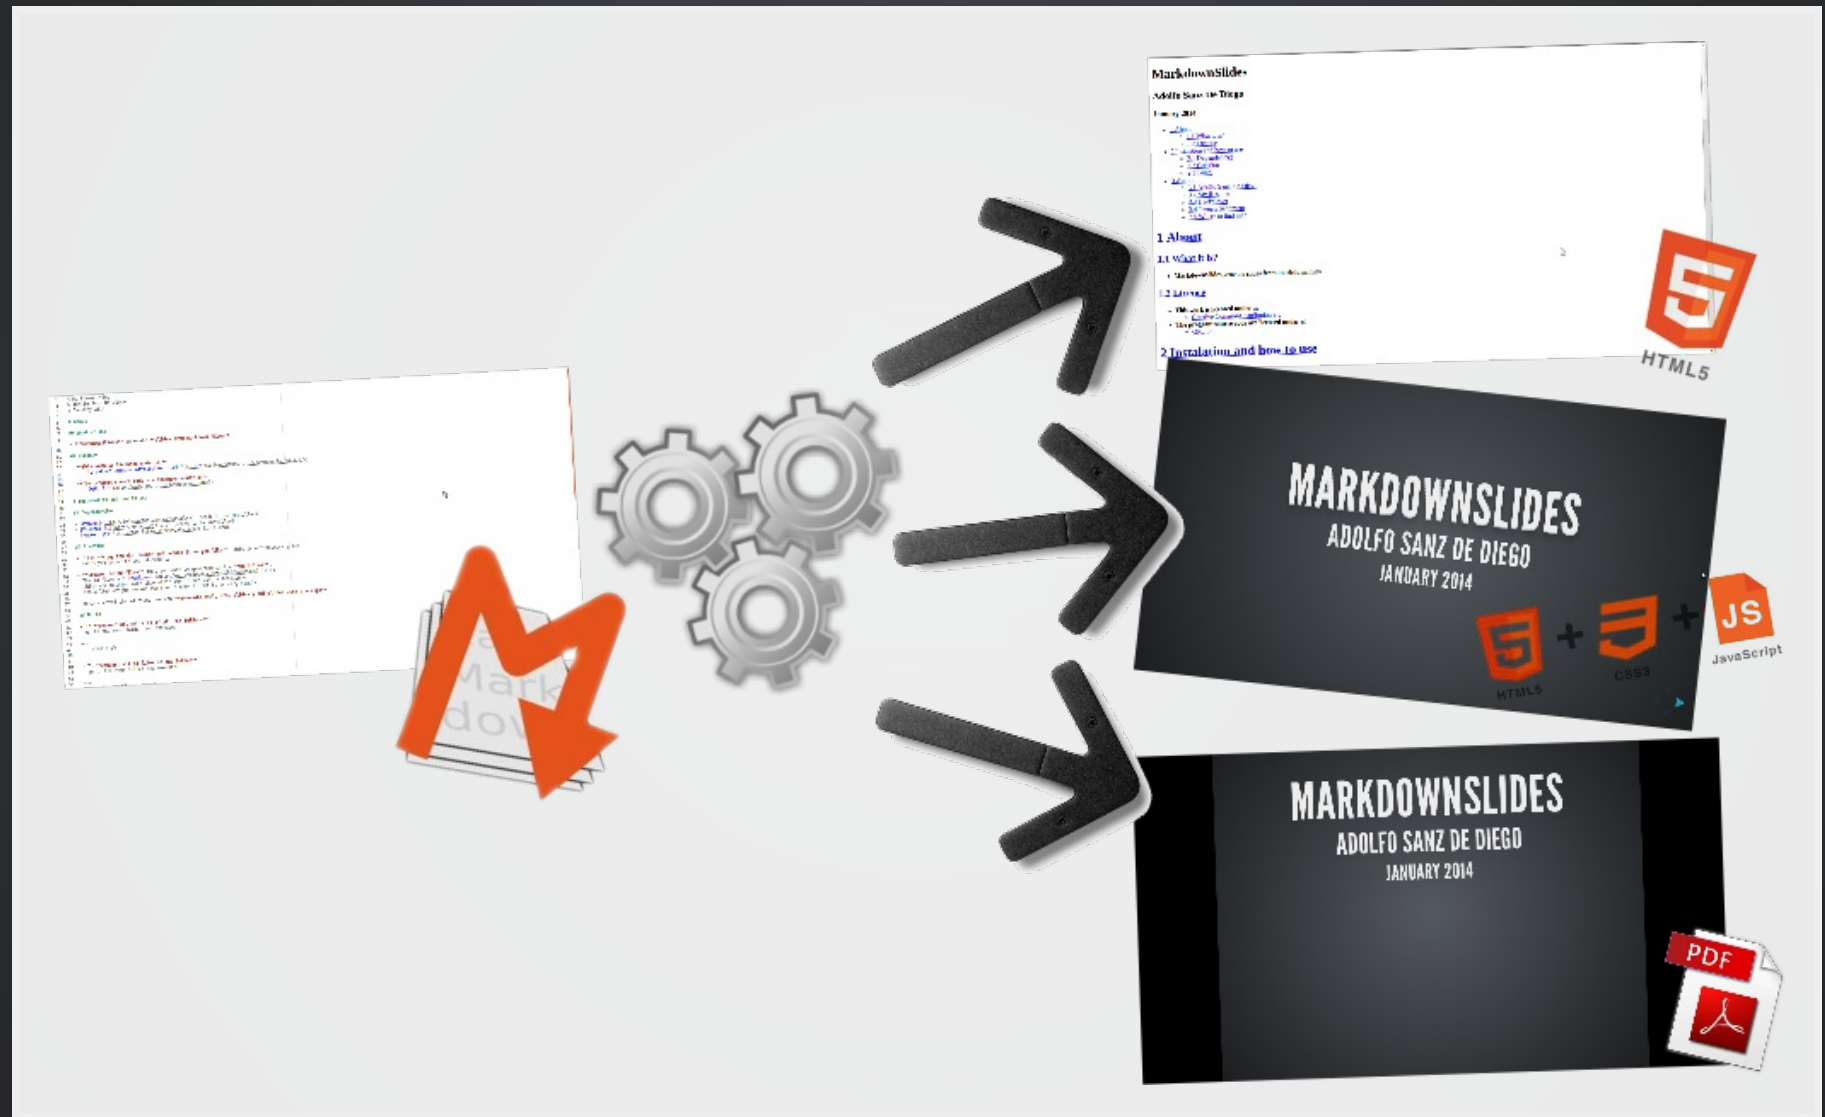

**JANUARY 2014**

# 1 ABOUT

# 1.1 WHAT IS IT?

- **MarkdownSlides** is a HTML and PDF **slides** generator **from MARKDOWN files**.

# 1.2 MARKDOWNSLIDES

# 1.3 LICENCE

- This work is licensed under a:
  - Creative Commons Attribution 3.0
- The program source code are licensed under a:
  - GPL 3.0

# **2 INSTALATION AND HOW TO USE**

## 2.1 DEPENDENCIES

- [Pandoc](#) (needs to be installed)
- [Phantom.js](#) (needs to be installed)
- [Reveal.js](#) (included)

## 2.2 CREATION

- First **copy the doc folder and rename it as you like**. This is not necessary but helps you organize your documents.
- **Create the md files** that you want to generate in the **md folder**. The md files are **Markdown** files which are nothing more than plain text files with extension md, and a lightweight markup (we should know it but it is very simple).
- Once created the md files, we can **generate html, html-slides y pdf-slides with a script**.

## 2.3 BUILD

- To **convert all md files of all the folders** go to the root folder and execute:

```
./build.sh
```

- To **convert all md files of one folder** go to the root folder and execute:

```
./build.sh [folder_name]
```

**3 AUTHOR**

## 3.1 ADOLFO SANZ DE DIEGO

## 3.2 MY RESUME

- **Old JEE web developer**
- **Today:**
  - **Computer teacher:**
    - Hardware, Operating Systems
    - Networking, Programming
  - **Freelance Trainer:**
    - Java, Android
    - JavaScript, jQuery
    - JSF, Spring, Hibernate
    - Groovy & Grails
  - **I like to develop**

## 3.3 HACKALOVER

The logo for Hackathon Lovers is displayed within a white rectangular border. It consists of two horizontal bars. The top bar is red and contains the word "Hackathon" in black, sans-serif font. The bottom bar is black and contains the word "Lovers" in red, sans-serif font, with each letter separated by a small gap.
